THE report of the Committee of the day, excited considerable pasts. It is alleged that the process of dredging at the Ballze is conducted simply for the purpose of securing silence in the Northwest. Nothing is intended to be done by Congress, which, by any be done by Congress, which, by any conducted simply for the purpose of securing silence in the Cook & Co. and E. W. Clark & Co.

And her steeping ups manage to the promote the above object by meetings, lectures, pamphlets, the press," etc.

White tropped from the full, full heart, As we are from a shaken cup endeally over the bring. The Northern Pacific Railroad Company, but also in other respects, from the but also in other respects, from the cook & Co. and E. W. Clark & Co. possibility may so cheapen river com- adoption of this measure. munication with the sea, that trade and the wheat crop may be diverted from Boston and New York. It costs a vessel of 2000 tons \$4000 to pass to New Orleans from the Gulf and return. This enormous tax imposed by lighters and pilots falls upon the grain and bacon crops of the Northwest. thus forced over railways owned by Boston and New York into those cities. New York and Boston and their railway companies are enriched, while farming populations everywhere are impoverished.

It thus seems strange that the few sensible men in Congress, representing western agricultural communities, do not compel the discussion of questo cut a ship canal from New Orleans to Barrataria Bay, twenty-one miles, even deeper and broader than that which connects the Red and Mediterranean seas. On either shore there thousand tons may be towed by locomotives to New Orieans. If the task were possible, the cost of towing such a vessel from the Balize to the city dollars, with facilities suggested, the lars. New Orleans, instead of the most costly, would become the cheapon the continent. The Northwest now the poorest portion of the United States. If the Mississippi were diverted into Lake Borgne by a canal, cut from the city tide water will ebb and flow at the wharves of New Orleans, and the high-water mark will be lowered throughout the year filteen feet. This permanent fall will be perceptible above Vicksburg. It is then proposed to reopen closed outlets through which the river once reached Lake Pontchartrain. From Pine Bluff, on the Arkansas, a canal is to conduct the river these last into the Atchafalaya, that
